 - Lydia noted that bill in process states that everything within 5 ft of the home has to be removed entirely; this bill is being pushed through with minimal community input. Lydia noted that STNC is working to get a reconsideration of the high fire zone map which currently excludes portions of the area (Foothill Blvd) although the excluded area is surrounded by a high fire zone designation. (**Ember-Resistant Zone**, extends **0-5 feet** from a home and requires the most stringent fuel reduction to prevent ember ignition. This zone requires clearing all dead vegetation, flammable materials, and combustible landscaping like wood mulch or bark to prevent fire spread to the structure.) This is an Executive order from Newsom.

13. Discussion/Action: **SB79 Update** - City voted to oppose Community Impact Statement & Charter Reform - Discussion/Possible Action: CF-2025-1152 Neighborhood Council Applicants / Registered Sex Offender Status / Disclosure Requirement / Registry Exclusion

- SB79. Lydia gave an update of SB70 with comments from Melissa.
- CF-2025-1152. Lydia gave a description of the bill. Lydia said there was an issue with Studio City NC where she attended a meeting. A community member had researched a potential NC member and found this person had been a school police officer and had been jailed for sexually assaulting students. The Board didn't want to ask directly if the person if they were a sex offender and asked if had previously been in law enforcement - and he said no. They approved him and when they found out, they released him from the Board with the City Attorney getting involved. Lydia felt that we needed to have a position on this including whether they needed to disclose information and if NCs should have to accept them. Comments were made by Jon, Barry, Cindy, Karen, Melissa, Armen and Cheryl that included a caution that this could have impact on other crimes, the difficulty NCs would have to oversee criminal history, the ease of getting the information from websites that investigate criminal histories with websites that specifically identify registered sex offenders with no charge, the position the NC would be in if they accepted a convicted sex offender that would be interacting with children during NC activities, whether NCs could discriminate, what responsibilities and challenges NCs had for investigating potential members, that sex offenses are not like other crimes, and sex offenders are not likely to be rehabilitated even with time served. Rodriguez position is to support keeping registered sex offenders off NC Boards. Lydia concluded that the City has a responsibility to protect people and that further discussions and taking a position could happen at future meetings.
